

SPB SPEED EPOXY
 20 min
 60 min
 4 min

Speed Epoxy 4, 20 & 60 min epoxy glues. AD65, AD68, AD71. Add strength with Milled Fibre. BD69

Model Lite
 - easy sanding lightweight filler for balsa fibreglass etc. BD5, BD6

Eze Kote
 - finishing resin for balsa. BD37

Fix n Flex
 - safe adhesive for bonding servos, carbon & plastic parts & re-attaching decals. AD78

Aeropoxy - hard durable wing skinning epoxy. BD1. Easier sanding with Micro Balloons. BD15

R/C Modellers
 - gap filling clear glue for canopies and rivets. AD81

Aerokote - tough, high gloss fuel proofer. BD45

Grime 2 Shine
 - foaming cleaner for effortless removal of dirt & oily grime. AC27

Carbon Tissue
 - for surfacing & strengthening balsa and foam. BD62

PowerModel 2T-5
 - synthetic 2T oil with heat protection for gasoline 2 stroke engines and diesels. LU01

Wonderfill
 - strong lightweight filler for foam. BD48

Liquid Gravity
 - pourable weighting & balancing system. BD38

Aero T<ch
 - non-drip epoxy for bonding composites etc. AD64, AD63

Tacky Wax
 - hold servo screws on screwdrivers. AD29

PowerModel Jet Oil
 - the World's first fully synthetic environmentally friendly turbine oil. LU02

Speedbond
 - special modelling PVA. 5 minute bond. AD10 & AD11

Eze Tissue - for high strength, lightweight covering. BD70 to BD79

Aliphatic Resin
 - fast grab, easy sanding yellow wood glue. AD8 & AD9

Eze Wind
 - rubber lubricant, maximises energy for the ultimate flights. LU03

Cover Grip
 - heat sensitive adhesive for bonding covering film. AD22

Roket - fast setting 1-30 second CA glues. AD43-46

Foam 2 Foam improved
 - foam safe, clear adhesive for rapid foam modelling. Even create hinges. AD34

Tissue Paste
 - strong bond on all tissue. AD60

Eze Dope
 - for shrinking & airproofing tissue paper. BD42

Super Phatic!
 - super-thin, non-fuming, alternative to CA for pre-assembled joints, hinges. AD21

Super Phatic!
